

Creation of White Hake ageing datasets for OpenData

Daniel Ricard

January 9, 2020

White Hake

White Hake otoliths are collected on the annual September RV survey and during scientific sampling of commercial fisheries.

The goal here is to summarise the ageing materials that we have, and provide a dataset of the otoliths that we have at the Gulf Fisheries Centre.

```
## RV data
y <- read.card(species=12, card.type="bio")

## Warning in convert.vector(x[, vars[i]], to = format[vars[i], "format"]): Some
## numerical values were set to NA.

## commercial data
## what years are available for commercial ages?
## com.files <- list.files(path="//DFNBE1CwpFSP002/Hd2/commercial/age", pattern="whage")
y.c <- read.card(year=1982, sampling="commercial", species=12, card.type="age") ## this loads all pre-1983

## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage4882.dat'"

for(yy in c(1983:2017)){ ## loop over years
  t.c <- read.card(year=yy, sampling="commercial", species=12, card.type="age")
  y.c <- rbind(y.c,t.c)
}

## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1983.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1984.dat'"

## Warning in dmm2deg(x$longitude.start/100): 'minutes' argument must lie between 0
## and 60.

## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1985.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1986.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1987.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1988.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1989.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1990.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1991.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1992.dat'"
## [1] "Reading: '//DFNBE1CwpFSP002/Hd2/commercial/age/whage1993.dat'"

## Warning in dmm2deg(x$latitude.start/100): 'minutes' argument must lie between 0
## and 60.

## Warning in dmm2deg(x$longitude.start/100): 'minutes' argument must lie between 0
## and 60.
